

# **s.24 DZR**

# 1/2" - 4" EN 10226-1 stainless steel handle dezincification-resistant

Several governmental authorities recommend use of special alloys for valves handling water in areas where there is a problem of dezincification.

**RuB** DZR valves are designed to meet such requirements.

Through the use of new technology these valves retain the reliability and competitiveness of brass, but are comparable to bronze in corrosion resistance.

Be kind with yourself, make sure the valve that brings you pure fresh water is an **RuB** DZR valve.

- 24h 100% seal test guaranteed
- Dual sealing system allows valve to be operated in either direction making installation easier
- No metal-to-metal moving parts
- · No maintenance ever required
- Handle clearly shows ball position
- Silicone-free lubricant on all seals
- Chrome plated DZR brass ball for longer life
- Handle stops on body to avoid stress at stem

#### **Body**

- Hot forged sand blasted DZR unplated body and cap sealed with Loctite® or equivalent thread sealant
- Dezincification resistant ADZ-T and ADZ-P brass approved to SBN-PFS 1983:2 and NR-BFS 1988:18 specifications

#### Stem

- Maintenance-free, double FPM O-rings at the stem for maximum safety
- Blowout-proof unplated DZR brass stem

#### Sealing

• Pure PTFE self-lubricating seats with flexible-lip design

#### Threads

• EN 10226-1, ISO 228 parallel female by female threads

#### **Flow**

• Full port to DIN 3357 for maximum flow

#### Handl

- Stainless steel handle with thick PVC dip coating. Handle coating offers both thermal and electrical protection
- Handle removable with valve in service
- WARNING: do not exceed reasonable temperature and/or electrical load

#### **Working pressure & temperature**

- 30 bar (450 PSI) non-shock cold working pressure
- -40°C to +170°C (-40°F to +350°F)
- **WARNING:** freezing of the fluid in the installation may severely damage the valve

#### **Options**

- CW617N brass body and components
- T-handle
- Geomet® carbon steel handle
- Oval lockable handle up to 2", round over 2"
- Brass stem extension
- Patented locking device
- Stubby handle up to 2"
- **RuB** memory stop designed to be installed with our stubby handle

#### **Upon request**

- Crimp/press end connections
- Stainless steel ball (1.4401 / AISI 316)
- Glass filled PTFF seals
- Custom design

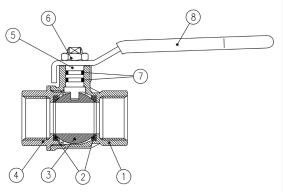

#### **PED directive**

• According to 2014/68/UE module A: it cannot be used with dangerous gases in sizes larger than 25mm

#### Approved by or in compliance with

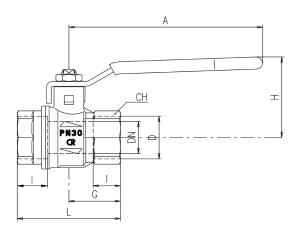

- RoHS Compliant (EU)
- GOST-R (Russia)
- $\bullet$  KIWA Regulation 4 a.k.a. KUKreg4 (United Kingdom) for sizes 1/2" through 2"
- EAC Declaration of conformity (Russia, Kazakhstan, Belarus)
- Water Regulations Advisory Scheme (United Kingdom) for sizes 1/2" through 2"

**NOTE:** approvals apply to specific configurations/sizes only.

	Part description	Q.ty	Material		
1	Unplated body	1	CW602N		
2	Ball seat	2	PTFE		
3	Chrome plated ball	1	CW602N		
4	Unplated end-cap	1	CW602N		
5	Unplated stem O-ring design	1	CW602N		
6	Stainless steel nut	1	1.4305 / AISI303		
7	O-Ring	2	FPM		
8	White PVC coated Stainless steel handle	1	1.4016 / AISI430		

1 1/4"-2" hollow ball

Kv (m3/h)	28	42	70	80	125	179	516	776	1130

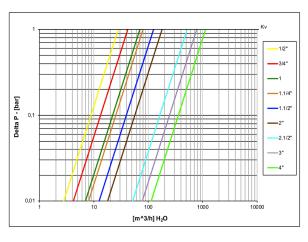

DN shows the nominal flow diameter. Actual flow diameter complies with full port DIN 3357 part 4. Stem configuration of valves over 2" is slightly different.

Ball valves are marked CE on handle from 1 ¼" to 2", on body over 2" as follow: CE XXCODEXX Cat. I-A
